This collection of information is required by 37 CFR 1.137(b). The information is required to obtain or retain a benefit by the public which is to file (and by the
USPTO to process) an application. Confidentiality is governed by 35 U.S.C. 122 and 37 CFR 1.11 and 1.14. This collection is estimated to take 1.0 hour to
complete, including gathering, preparing, and submitting the completed application form to the USPTO. Time will vary depending upon the individual case. Any
comments on the amount of time you require to complete this form and/or suggestions for reducing this burden, should be sent to the Chief Information Officer,
U.S. Patent and Trademark Office, U.S. Department of Commerce, P.O. Box 1450, Alexandria, VA 22313-1450. DO NOT SEND FEES OR COMPLETED
FORMS TO THIS ADDRESS. **SEND TO: Mail Stop Petition, Commissioner for Patents, P.O. Box 1450, Alexandria, VA 22313-1450.**

If you need assistance in completing the form, call 1-800-PTO-9199 and select option 2.

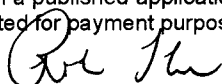

3. Terminal disclaimer with disclaimer fee

- ☐ Since this utility/plant application was filed on or after June 8, 1995, no terminal disclaimer is required.
- ☐ A terminal disclaimer (and disclaimer fee (37 CFR 1.20(d)) of \$ _____ for a small entity or \$ _____ for other than a small entity) disclaiming the required period of time is enclosed herewith (see PTO/SB/63).

4. STATEMENT: The entire delay in filing the required reply from the due date for the required reply until the filing of a grantable petition under 37 CFR 1.137(b) was unintentional. [NOTE: The United States Patent and Trademark Office may require additional information if there is a question as to whether either the abandonment or the delay in filing a petition under 37 CFR 1.137(b) was unintentional (MPEP 711.03(c), subsections (III)(C) and (D)).]

WARNING:

Petitioner/applicant is cautioned to avoid submitting personal information in documents filed in a patent application that may contribute to identity theft. Personal information such as social security numbers, bank account numbers, or credit card numbers (other than a check or credit card authorization form PTO-2038 submitted for payment purposes) is never required by the USPTO to support a petition or an application. If this type of personal information is included in documents submitted to the USPTO, petitioners/applicants should consider redacting such personal information from the documents before submitting them to the USPTO. Petitioner/applicant is advised that the record of a patent application is available to the public after publication of the application (unless a non-publication request in compliance with 37 CFR 1.213(a) is made in the application) or issuance of a patent. Furthermore, the record from an abandoned application may also be available to the public if the application is referenced in a published application or an issued patent (see 37 CFR 1.14). Checks and credit card authorization forms PTO-2038 submitted for payment purposes are not retained in the application file and therefore are not publicly available.

**PETITION UNDER § 1.47(A) TO ACCEPT JOINT INVENTOR DECLARATIONS THAT
FAILS TO INCLUDE SIGNATURE OF INVENTOR IMRAN CLARK WHO CANNOT BE
LOCATED AFTER DILIGENT EFFORTS BY APPLICANT**

MAIL STOP: OFFICE OF PETITIONS

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

This Petition is being filed under § 1.47(a). According to § 1.47(a) if a joint inventor refuses to join in an application for patent or cannot be found or reached after diligent effort, the application may be made by the other inventor on behalf of himself or herself and the nonsigning inventor. The oath or declaration in such an application must be accompanied by a petition including proof of the pertinent facts, the fee set forth in § 1.17(g) and the last known address of the nonsigning inventor. The nonsigning inventor may subsequently join in the application by filing an oath or declaration complying with § 1.63.

This Petition is being submitted as Imran Clark's signature cannot be obtained notwithstanding diligent efforts by the Applicant and their legal representatives. This Petition includes proof of the pertinent facts based on the Exhibits A through E attached hereto, the requisite fee under § 1.17(g), and further includes the last known address of the non-signing inventor. This Petition is required as Applicants

are unable to obtain Mr. Clark's signature by the March 6, 2008 due date notwithstanding diligent efforts. These diligent efforts are described below as substantiated by the Exhibits to this Petition.

FACTS:

(1) On February 12, 2008 the undersigned became aware of a Petition Decision mailed on February 6, 2008 and received in Hunton's offices on February 11, 2008. This Decision indicated that among other things the prior response to the Notification of Defective Response submitted on October 8, 2007, in response to the Notice mailed on September 24, 2007, was unacceptable because the prior submitted Declaration signed by all 6 inventors was an improper "composite" declaration.

(2) This earlier submitted Declaration was signed by all of the inventors including Imran Clark (signature dated May 21, 2007). Mr. Clark was mailed on May 17, 2007 a complete copy of the PCT application which is the basis of this patent application. (See Exhibit B which is a copy of a letter by Sherry Dollins of Senomyx Inc. mailed on May 17, 2007 to Mr. Clark advising him of the mailing of this application and the declaration to be signed by Mr. Clark). Based on the noted deficiency the Petition Decision indicated that Applicants were required to provide a new Declaration executed by all six inventors. This Petition Decision further required applicants to submit a statement according to MPEP 1893.01(e) satisfying 37 CFR 1.41(a)(4) (A) and (C) by (i) filing a statement by the added inventor, Bryan Moyer, indicating that his omission as an inventor, in the originally filed application, occurred without deceptive intent and (ii) filing a document including the written consent of the Assignee Senomyx Inc. agreeing to the addition of Bryan Moyer as an inventor.

(3) As soon as the undersigned became aware of these requirements, and of the non-extendible due date of March 6, 2008 for responding thereto. the undersigned prepared and via my assistant Ms Stacey Buckner sent on February 12, 2008 an email to the client advising as to the required signed documents and the non-extendible March 6, 2008 due date for submitting these signed documents. This email further included as attachments word documents containing the required Declaration, Inventor Statement and Consent by the Assignee for review and signature by the relevant inventors and with respect to the Consent by Assignee review and signature by an authorized representative of Senomyx Inc. The fact that these documents were sent on February 12, 2008 is substantiated by the email sent to Senomyx Inc dated February 12, 2008 and the attachments sent therewith which are attached to this Petition as Exhibit A.

(4) This email and the attached word documents (including the Declaration for execution by all of the six inventors) were received by the Assignee Senomyx and diligently sent to all of the inventors for signature including Imran Clark. This fact is substantiated by the letter dated February 13, 2008 signed

by Sherry Dollins of Senomyx sent to the inventor Imran Clark's last known address which is 6049 Paseo Carreta, Carlsbad, CA . This letter and the attachment sent therewith are attached to this Petition as Exhibit B. That this letter was mailed and included as enclosure a Declaration for signature by Imran Clark is also substantiated by the declaration of Sherry Dollins of Senomyx Inc attached as Exhibit C hereto In her Declaration she attests to the fact that she mailed these documents to Mr. Clark at his last known address together with an addressed envelope containing Senomyx' address and the correct postage to be returned to Senomyx and that as of today no reply to this letter has been received. Also, this envelope was not returned to Senomyx Inc. by the US Post Office indicating that these documents were delivered to this address. In addition Ms. Dollins notes that Mr. Clark has in the past been very timely responded to requests for signed patent and other corporate documents sent to this address as evidenced by the fact that Mr. Clark previously signed a declaration for the subject application on May 21, 2007 after the subject application and a Declaration for Mr. Clark's review and signature were sent to the same address.

(5) Because of the failure of Senomyx Inc. to receive the declaration executed by Mr. Clark as of March 4, 2008, on the same date Ms. Dollins further sent to Mr. Clark's last known email address an inquiry regarding the status of the documents sent to Mr. Clark's home address for signature. Previously, Mr. Clark has responded to emails sent to him at this email address. This email is attached to this Petition as Exhibit D. No response to this email was received. Ms. Dollins further notes in her Declaration that Senomyx has no additional contact information for Imran Clark, who terminated his employment with Senomyx on July 21, 2003 and they are further unaware of his current employer.

The Commissioner is authorized to charge the petition fee in the amount of \$200.00 to Deposit Account No. 50-0206. It is believed that no additional fees are required however, in the event that any additional monies are required the Patent Office is expressly authorized to charge Applicant's Deposit Account No. 50-0206.

CONCERNING DILIGENT EFFORTS TO OBTAIN IMRAN CLARK'S SIGNATURE**

MAIL STOP: OFFICE OF PETITIONS

Commissioner for Patents

P.O. Box 1450

Alexandria, VA 22313-1450

Sir:

I, Sherry Dollins, hereby state the following:

(1) That I am currently employed by Senomyx Inc. as a Senior Manager, and that one of my corporate duties involves sending patent related documents to inventors on Senomyx applications for signature and ensuring that these documents are received and sent to patent counsel so that these documents can be filed with the appropriate Patent Office by the appointed due date.

(2) That on May 17, 2007, as is my practice, I sent a copy of the above-identified patent application, an inventor declaration for Mr. Clark's signature, and further included a return envelope addressed to Senomyx and containing the proper postage. These documents were sent by DHL second day courier to Imran Clark's last known address which is 6049 Paseo Carreta, Carlsbad, California 92009.

(3) That I received the signed declaration from Mr. Clark and forwarded this signed inventor declaration to patent counsel for filing in the US Patent and Trademark Office. This is evidenced by the fact that the signed declaration containing Mr. Clark's signature was timely filed by patent counsel, Hunton & Williams LLP with the USPTO on July 9, 2007.

(4) That on February 12, 2008, I received an email from Stacey Buckner, assistant to Robin Teskin, patent attorney at Hunton & Williams LLP advising that the prior declaration executed by Imran Clark and the other inventors of this application was found to be defective as it was deemed to be a "composite declaration." I was further advised that there was a March 6, 2008 deadline to submit a proper signed declaration signed by all 6 inventors, as well as a signed statement by Bryan Moyer regarding his addition as an inventor and a Consent document to be executed by Senomyx agreeing to the inclusion of Bryan Moyer as an inventor.

(4) That I promptly and diligently forwarded this declaration for signature to all of the inventors including Imran Clark. As Mr. Clark terminated his employment with Senomyx Inc. on July 21, 2003, I mailed a complete copy of the inventor declaration to his last known address as evidenced by my attached signed cover letter to Mr. Clark dated February 13, 2008. This letter, as is my practice, included as an enclosure an addressed, stamped envelope to facilitate prompt return of the signed declaration to Senomyx. I did not include a copy of the subject patent application as an enclosure as I previously sent a copy of the complete US application, as-filed, to Mr. Clark when I forwarded the prior inventor Declaration which he signed on May 21, 2007, and which was filed with the Patent Office on July 9, 2007. I further note that in the past, Mr. Clark has always promptly returned to Senomyx, Inc. signed patent documents sent to this address. In addition, Senomyx's records indicate that Senomyx never received any notice from the US Postal Office advising that these documents could not be delivered to this last known address for Mr. Clark.

(5) On March 4, 2008, when I realized that the due date of March 6, 2008 for responding was fast approaching I further sent an email reminder to Mr. Clark to an email address wherein Mr. Clark has previously responded and sent email correspondence to Senomyx, Inc. As of today, I have received no response to this email. In addition, I received no message indicating that this email had not been received.

(6) I further inquired as to the employee records of Senomyx's human resources department and am advised that as of today we have no further contact information for Mr. Clark. Also, Senomyx has no information regarding his current employment status.

I further declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that the statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment or both, under Section 1001 Title 18 of the United States Code, and that such willful false statements may jeopardize the validity of the application or any patent issuing thereon.

Sir:

This Petition is being filed under 37 CFR 1.497(d) and is responsive to the Decision mailed on February 6, 2008. This Decision indicated that Applicant's prior response regarding the addition of Bryan Moyer as an inventor was deficient as it failed to satisfy items (A) and (C) set forth in MPEP 1893.01(e), i.e., (A) a statement from each person being added as an inventor averring that the change in inventorship in the international application occurred without deceptive intent and (C) the written consent of the assignee regarding the change in inventorship. According to § 1.497(d)

"If the oath or declaration filed pursuant to 35 U.S.C. 371(c)(4) and this section names an inventive entity different from the inventive entity set forth in the international application, or if a change to the inventive entity has been effected under PCT Rule 92bis subsequent to the execution of any oath or declaration which was filed in the application under PCT Rule 4.17 (iv) or this section and the inventive entity thus changed is different from the inventive entity identified in any such oath or declaration, applicant must submit:

- (1) A statement from each person being added as an inventor and from each person being deleted as an inventor that any error in inventorship in the international application occurred without deceptive intention on his or her part;
- (2) The processing fee set forth in § 1.17(i); and
- (3) If an assignment has been executed by any of the original named inventors, the written consent of the assignee (see § 3.73(b) of this chapter); and
- (4) Any new oath or declaration required by paragraph (f) of this section.”

In order to satisfy these requirements Applicants provide herewith (i) a signed statement by the added inventor, Bryan Moyer, advising that his omission from the PCT application on which this application is based occurred without any deceptive intent; and (ii) the written consent by an authorized representative of the Assignee Senomyx Inc. regarding the addition of Bryan Moyer as an inventor.

The Commissioner is authorized to charge the petition fee in the amount of \$130.00 to Deposit Account No. 50-0206. It is believed that no additional fees are required however, in the event that any additional monies are required the Patent Office is expressly authorized to charge Applicant's Deposit Account No. 50-0206.

Respectfully submitted,

Dear Sherry:

Attached are copies of the Statement from Bryan Moyer, Consent by Senomyx, Inc. To the Addition of Bryan Moyer As A Co-Inventor and new Declaration and Power of Attorney for Patent Application for the above-identified patent application. Please review and have the documents signed by all parties for filing with the Patent Office. The Patent Office is requiring all six inventors sign and submit a single complete Declaration and not have multiple signature pages of the same document.

As always, should you have any questions, please contact us.

Hi Imran,

I hope this finds you and your family well. I am following up on a patent signature document that I sent to your home three weeks ago. Could you let me know if you received it and if you have returned it? I have attached a duplicate if you don't mind, please print, sign and return. Thanks as always for your cooperation.

Dear Imran:

Enclosed is a document entitled Declaration and Power of Attorney for Patent Application relating to the above-entitled patent application. Also enclosed is a copy of the application as filed in the USPTO. As a reminder, US patent laws require that inventors read the application before executing the Declaration.

Once you have reviewed the application, please sign and date the Declaration and return it to me along with the application in the enclosed envelope.

As a reminder, in order for Senomyx to maintain current inventor contact records, please inform us of any change in your email and/or residence address. This will enable us to provide you with important inventorship information.

Hope all is well with you. As always, thank you for your cooperation.

Sincerely,
